PICKUP V-BOX SPREADERS

IT'S WHAT WE KNOW

LPV™ Spreaders | PV™ Spreaders | Poly Hawk™ Spreaders | MDV™ Spreaders

CONSIDER THE POSSIBILITIES OF SWENSON PV SPREADERS

Swenson's PV spreaders have the flexibility to work with most standard 1/2-ton, 3/4-ton, and 1-ton pickup trucks, as well as heavy duty and super duty trucks, and flatbeds or dump bodies. Swenson's quality and performance are second to none. Our rugged lines of PVs are the industry leaders for reliability and can stand the rigors of the harshest environments. From our virtually indestructible PolyHawk, to the low maintenance and ultra reliable electric drive units, Swenson has a spreader designed for you.

IT'S WHAT WE KNOW.

HOW TO CHOOSE THE RIGHT SWENSON PV FOR YOUR APPLICATION

With a complete line of rugged equipment to choose from, Swenson's value advantage makes it easier than ever to make the right choice for your specific needs.

Using the application/equipment chart to the right we've made it easy to best determine which Swenson PV unit is best for your application.

Carbon Steel vs. Stainless Steel vs. Polymer

Carbon Steel Hoppers

Carbon Steel hoppers provide the most economical solution for the ice control expert. All Swenson Carbon Steel PV's go through a state-of-the-art powder coat line prior to shipment to provide the most durable and consistent finish in the industry.

Stainless Steel Hoppers

Stainless Steel is designed for highly corrosive environments, such as salt and sand spreading. Because Stainless Steel is noncorrosive in nature, no painting is necessary. Stainless Steel means less maintenance and an extended life of your PV.

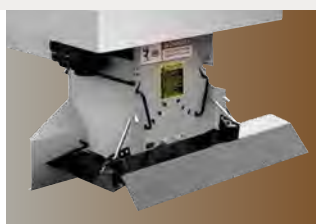

Polymer Hoppers

Polymers have been used for years in many demanding industries including the automotive, marine, and recreational segments. Hoppers made of polymer withstand cold temperature, will not corrode, and retain their shape even after being loaded/unloaded with large amounts of material. Our newest product, the Poly Hawk™, has a one-piece polyethylene hopper that is nearly indestructible!

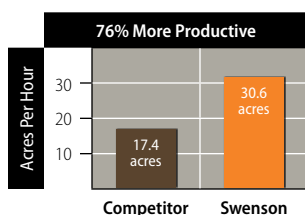

GAS DRIVE
ELECTRIC DRIVE

Equipment | Materials | Solutions

LPV™

Baffle pins provide secured, controlled spreading.

Swenson's Electric LPV provides 76% more productivity than competitive spreaders.

Equipment

Size Specifications:	36" wide x 25" tall*** x (5', 6', 7', 8') deep – 434 to 586 lbs
Capacity:	0.30 - 0.95 cubic yards
Drive:	Gas, Sealed 12V electric motor
Construction:	Stainless Steel
Flow Rate:	4' - 30' spread pattern**
Steel Gauges:	14 gauge trough
Safety Features:	Drop N Lock top screen
Warranty Details:	1 year warranty*
Options:	Vehicle battery harness kit, Nylon strap mounting kit, Tarp kit, Additional 6" side extension

* 1 year limited warranty applies to hopper only. See dealer or www.swensonspreader.com for more details

** Approximate width; spreading results may vary

*** 31 inches with optional 6 inch extension

Materials

- Salt
- Sand
- Salt / Sand Mix

Highlights

- Spreads the same amount of material 2.3 times faster than competitors allowing for more profitable and efficient spreading
- 45° slope on hopper sides allows free flow of materials to conveyor
- 12 V sealed, electric motor provides smooth, quiet operation for spreading salt in neighborhoods or noise sensitive areas
- 12 V sealed, electric motor minimizes maintenance costs with less moving parts resulting in increased up time and productivity
- 14 gauge carbon steel sides provide durable and long lasting construction
- Replaceable conveyor floor for easy service and maintenance
- Self-cleaning pintle style conveyor chain is easily serviced and maintained providing longer conveyor life
- Drop N Lock top screen provides increased safety and reduced maintenance
- Covered chains at both the front and rear of hopper provides increased safety for the operator

PV™

GAS DRIVE
ELECTRIC DRIVE
HYDRAULIC DRIVE

Highlights

- 12 gauge carbon steel sides provide durable and long lasting construction
- 45° slope on hopper sides allows free flow of materials to conveyor
- Replaceable stainless steel conveyor floor easily serviced and maintained
- Self-cleaning pintle style conveyor chain is easily serviced and maintained providing longer conveyor life
- Drop N Lock top screen provides increased safety and reduced maintenance
- Maintenance free front idler roller provides trouble-free drag chain operation
- Standard Inverted V
- 2 internal/4 external baffles

Poly bearings.

Fork pockets.

Wireless controller.

Equipment

Size Specifications:	50" wide x 35" tall x 8" deep – 905 to 955 lbs
Capacity:	2.0 cubic yards
Drive:	Gas, electric, hydraulic
Weight:	915 - 1040 lbs
Construction:	Carbon or Stainless Steel
Flow Rate:	4' to 30' spread pattern**, 13" polyurethane disc
Steel Gauges:	12 gauge trough
Safety Features:	12,500 lbs tensile strength self cleaning pintle chain, Drop N Lock top screen
Warranty Details:	1 year limited warranty*
Options:	Top screens, inverted v, center lift point, replaceable in-bolt center floor, In cab controls (engine drive) (OPTIONAL), wireless controls-engine drive (STANDARD), heavy duty engine shroud, patent pending fork pockets for easier handling of spreader Nylon strap mounting kit, Cab protector/spill shield, Liquid spray systems, Hydraulic hose kits, Hydraulic control valve stand, Hydraulic pump & reservoirs, Tarp kit, Special paint, Remote battery connection harness, Spinner extension, Additional 6" side extension, Various reservoirs

* 1 year limited warranty applies to hopper only. See dealer or www.swensonspreader.com for more details

** Approximate width; spreading results may vary

Materials

- Salt
- Sand
- Salt / Sand Mix

POLY HAWK™

LIMITED
10 YEAR
WARRANTY

Gasoline engine drive.

Electric motor drive.

Hydraulic motor drive.

Equipment

Size Specifications:	50" wide x 35" tall x 8' deep – 850 lbs
Capacity:	2.0 cubic yards
Weight:	776 - 855 lbs
Construction:	Poly
Flow Rate:	4' to 30' spread pattern
Steel Gauges:	10 gauge trough
Safety Features:	Overlapping baffles, Top screens
Warranty Details:	10 year limited warranty*
Options:	Honda engine drive, Hydraulic drive, Electric motor drive, Engine over hydraulic drive, Nylon strap mounting kit, Liquid spray systems, Hydraulic hose kits, Hydraulic control valve stand, Tarp kit, Remote battery connection harness, Spinner extension

* 10 year limited warranty applies to hopper only. See dealer or www.swensonspreader.com for more details

Materials

- Salt
- Sand
- Salt / Sand Mix

Highlights

- Triple crimped top edges and four side body supports providing durable construction and longer life
- Heavy duty stainless steel swing up spinner simplifies clean up and storage
- Durable one-piece polyethylene hopper resists corrosion. Leads to longer life and less downtime
- 45° slope on hopper sides allows free flow of materials to conveyor
- Replaceable stainless steel conveyor floor easily serviced and maintained
- Comes fully assembled and ready to install from the factory reducing installation time and cost
- 2 cubic yard capacity hopper. Greater capacity means less stops to reload material
- Dual speed variable controller allows for separate independent control of the auger and the spinner disk
- Wireless controls for ease of installation and use
- Integral fork pockets for easy installation and removal of spreader

MDVA™

ELECTRIC DRIVE
HYDRAULIC DRIVE

Highlights

- Extra capacity for the demands of the heavy duty user
- Increased profitability and performance; less trips to salt pile
- Auger conveyor system improves spreader pattern by providing constant material flow to spinner
- 50% increased material capacity vs. standard PV increases productivity and minimizes number of reloads
- Replaceable conveyor floor for easy service and maintenance
- 12 gauge stainless steel sides/ends provides durable and long lasting construction
- Direct drive conveyor reduces moving parts for easier service and extended life
- Drop N Lock top screen provides increased safety and reduced maintenance

Full length auger.

Available in stainless steel.

Equipment

Size Specifications:	70" wide x (40", 44") tall x (8', 9') deep – 1160 to 1360 lbs, 6" auger
Capacity:	3 to 4.5 cubic yards
Construction:	Stainless Steel
Flow Rate:	4' to 30' spread pattern**
Steel Gauges:	12 gauge trough
Safety Features:	Drop N Lock top screen
Warranty Details:	1 year limited warranty*
Options:	Nylon strap mounting kit, Tailgate latch kit, Chain oilers, Lights, Cab protector/spill shield, Liquid spray systems, Hydraulic hose kits, Hydraulic control valve stand, Hydraulic pump & reservoirs, Tarp kit, Special paint, Remote battery connection harness, Spinner extension, Additional 6" side extension, Various reservoirs

* 1 year limited warranty applies to hopper only. See dealer or www.swensonspreader.com for more details
** Approximate width; spreading results may vary

Materials

- Salt
- Salt / Sand Mix*

* Not recommended for straight sand.

- Replaceable conveyor floor for easy service and maintenance
- 12 gauge carbon steel sides/ends provide durable and long lasting construction
- Self-cleaning pintle style conveyor chain is easily serviced and maintained providing longer conveyor life
- Drop N Lock top screen provides increased safety and reduced maintenance
- Standard wireless controls allows for easy installation
- Available in auger and drag chain driven material movement systems

**Look to Swenson for
all your equipment needs.**

Swenson offers a wide range of spreaders, dump bodies and liquid application equipment that can be customized to meet your exact needs. It's what sets us apart from the competition. We know it's critical to make sure you have the proper equipment right from the start.

Dump Bodies

Available in a wide variety of sizes from 9' to 15'; 5 to 16 cu. yds.

Insert Dump Beds

Available in 6.5' and 8' lengths; 1.5 and 2.24 cu. yds.

All Purpose Bodies

Available from 9' to 15'; and 2.5 to 16 cu. yds.

Anti-Icers

From 100 to 1,000+ gallon; perfect solution for pre-treating pavement

Pre-Wet Systems

Available in hydraulic or electric; perfect solution for improving material effectiveness

SWENSON GENUINE PARTS

Genuine Swenson Parts and Accessories are in stock to keep you up and running from one season to the next – all year round. We have a large parts and accessories inventory. It is continuously maintained for fast shipment to you or your authorized Swenson distributor.

An experienced Parts and Accessories Manager is always available to provide you with detailed information on chains, belts, sprockets, augers, motors, spinner assemblies, valves, and emergency parts kits. Whether you own a small business or manage an entire fleet, our job is keeping you on the job. Remember, only genuine Swenson parts fit your Swenson equipment exactly.
