

KM 4000T ASPHALT HOTBOX RECLAIMER

Innovative Asphalt Maintenance Solutions

The KM 4000T is a two (2) ton asphalt hotbox reclaimer that allows the user to maintain hot mix asphalt (HMA) or cold patch material at a workable temperature for up to 48 hours for use and transportation, or reclaim bulk store un-compacted virgin mix overnight (8-10 hours). KM International offers several options allowing you to customize your hotbox reclaimer to fit your exact needs and specifications.
